

Sathya Sai International Organisation- Mauritius

Cautionary Announcement-Muddenahalli imposters

The **Sathya Sai International Organisation- Mauritius** is issuing this advisory in the light of confirmed information that some spiritual imposters are due to visit Mauritius from 11th to 14th December. These unscrupulous persons form part of a faction referred to as the Muddenahalli Group which is misusing the names of **Bhagawan Sathya Sai Baba** and of the **Sathya Sai organisations**. Behind a façade of social projects and pretence of spirituality, the group is implicated in illegal fund-raising, deceit, coercion, lies, impropriety and other unlawful activities.

The crux of the scam is the bogus averment that one of their acolytes is able to communicate with the so-called subtle or light or astral body of Bhagawan Sathya Sai Baba and that the spirit of the latter is now domiciled in his physically body, a totally fallacious claim which is neither rationally plausible nor spiritually tenable.

The Muddenahalli group has toured several countries where their visits have created uproar and unrest among members of the Sathya Sai Community. It is reported that the main object of these visits is to defraud, using deceptive means, targeted citizens. They were arrested and questioned in Lagos, Nigeria where, according to official police records, the leader, in police custody, denied all the propaganda around the subtle/light body fakery.

The **Sathya Sai Central Trust**, India has initiated various legal actions against some members of the Muddenahalli group for their deceitful and fraudulent activities. The **Prashanti Council and the Sathya Sai World Foundation**, the apex bodies of the **Sathya Sai International Organisation** have also issued cautionary statements against the fraudulent schemes of the Muddenahalli Group

The **Sathya Sai International Organisation- Mauritius** would like therefore to caution its members, devotees of Bhagawan Sri Sathya Sai Baba and the general public against the misdeeds and wrongdoings of the group. It is strongly suspected that they would be indulged in dishonest and shady activities such as unauthorized collection of funds, coercion, deceit and illegal meetings here. They have recourse to coercive and cold reading techniques to lure specific individuals.
